DETAILED ACTION

Restriction Requirement

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Group I, claim(s) 1-2, 4 and 6, drawn to a copolymer.

Group II, claim(s) 7-10 and 12-17, drawn to a process of stabilizing a fluorine containing polymer..
3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical feature(s), or the special technical feature(s) does not define a contribution over the prior art for the following reasons: Claims 1, 2, 4 and 6 are not considered to be novel in view of JP 60-240713, which is cited in the international preliminary examination report (Form 409), completed on 7 June 2000. For the reasons discussed in said report, the copolymers of Claims 1,2, 4 and 6 can be considered to be the same as the copolymers disclosed in the referenced patent and therefore are not novel. Accordingly, the special technical feature linking the two inventions, does not provide a contribution over the prior art..
4. In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single group of inventions to which the claims must be restricted.

Conclusion to Restriction/Election Requirement

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. A telephone call was made to Mr. Andrew D. Meikle on 2/27/02 to request an oral election to the above restriction requirement, but did not result in an election being made.
7. Applicant is reminded that if claims directed to the product are elected, and a product claim is subsequently found allowable, withdrawn process claims which depend from or otherwise include all the limitations of the allowable product claim will be rejoined. See M.P.E.P. § 821.04.
8. Applicant is also reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named

Art Unit: 1713

inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
